

Apps

An App (short for application) is a program that can be downloaded onto your iPad via the iTunes store.

Apps that are preloaded on a purchased iPad.

Apps

What can you use it for?

Mail is an email app that allows you to access and manage all of your email.

Safari is the iPad's web browser. It allows you to use apps as they would appear on a standard computer. You can zoom into text or images easily for a closer look.

Photo Booth uses the front-facing camera on the iPad 2 to capture your image and then allows you to edit your picture in various wacky ways.

Reminders is an easy way to remember what you need to do. You can add a new reminder to quickly organise yourself by due date or priority. When your due date gets closer, Reminders will let you know and help you get on track.

The **Photos** app organises all of the images on your iPad. You can create impressive looking slideshows from directly within the app.

The **iPod** is also a fully featured digital media player. The iPod app allows you to play your music, download and listen to podcasts and audiobooks.

The **App Store** allows you to view and download over 140,000+ apps made for iPads, iPods and iPhones.

Simple word processing and note-taking can be done using the **Notes** app and the onscreen keyboard. Notes can be synchronized via iTunes to your computer, or emailed to yourself for further polishing in a word processor such as MS Word, or Apple Pages.

The **Calendar** app has the look and feel of a traditional desktop calendar, with the added bonus of being able to view day, week or month to a page.

Apps needed to start the school year

The list of Apps below is required for download onto iPads in preparation for 2017 school year.
